"Pending ORION Entry" means the total number of inmates committed to the Department for which documentation has not yet been received from the sentencing courts to allow the inmates to be placed in controlled intake status.

"Person Count" means the actual number of inmates physically present during count.

"Special Purpose Beds" means beds reserved for emergency movement between institutions or within an institution.

"Total Institutional Count" means all inmates currently assigned to an institution. (The person count of an institution plus the number of inmates temporarily out to court, hospital or furlough.)

II. POLICY and PROCEDURES

A. Each institution shall provide the Classification Branch Manager with population data each regular workday.

1. This population data shall include:

- a. A current person count. The report shall reflect the results of the institutional midnight count;
- b. The number of inmates temporarily out of the institution on furloughs, hospital trips and court hearings on an overnight basis Monday through Friday, excluding holidays; and
- c. The institution shall prepare a Daily Population Report that reflects the results of the institutional counts and any movement scheduled for the day.

2. This information shall be provided no later than 9:30 a.m. Frankfort time Monday through Friday, excluding holidays. The Classification Branch Office shall compile the Daily Population Report from data submitted by the institutions.

3. The report shall also reflect the population statistics from the department's information management system.

B. Institutional capacities and the number of special purpose beds for each institution shall be determined by the Deputy Commissioner of Adult Institutions with the approval of the Commissioner.
